

### Tubo de precisión cuadrado

| Medidas |      | Espesor medio (mm) |   |
|---------|------|--------------------|---|
| (mm)    | (mm) | 1,5                | 2 |
| 10      | 10   |                    |   |
| 12      | 12   |                    |   |
| 14      | 14   |                    |   |
| 15      | 15   |                    |   |
| 16      | 16   |                    |   |
| 18      | 18   |                    |   |
| 20      | 20   |                    |   |
| 22      | 22   |                    |   |
| 25      | 25   |                    |   |
| 28      | 28   |                    |   |
| 30      | 30   |                    |   |
| 32      | 32   |                    |   |
| 35      | 35   |                    |   |
| 40      | 40   |                    |   |
| 45      | 45   |                    |   |
| 50      | 50   |                    |   |
| 55      | 55   |                    |   |
| 60      | 60   |                    |   |
| 70      | 70   |                    |   |
| 80      | 80   |                    |   |
| 90      | 90   |                    |   |
| 100     | 100  |                    |   |
